Investor Presentation

Safe Harbor

Risks Associated with Forward-Looking Statements Included in this Presentation:

This presentation contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, which are intended to be covered by the safe harbors created thereby. Forward-looking statements include statements which are predictive in nature, which depend upon or refer to future events or conditions, or which include words such as “expect,” “anticipate,” “intend,” “plan,” “believe,” “estimate” or similar expressions. These statements may include the plans and objectives of management for future operations, including plans and objectives relating to future growth of our business activities and availability of funds. Statements regarding the following subjects are forward-looking by their nature:

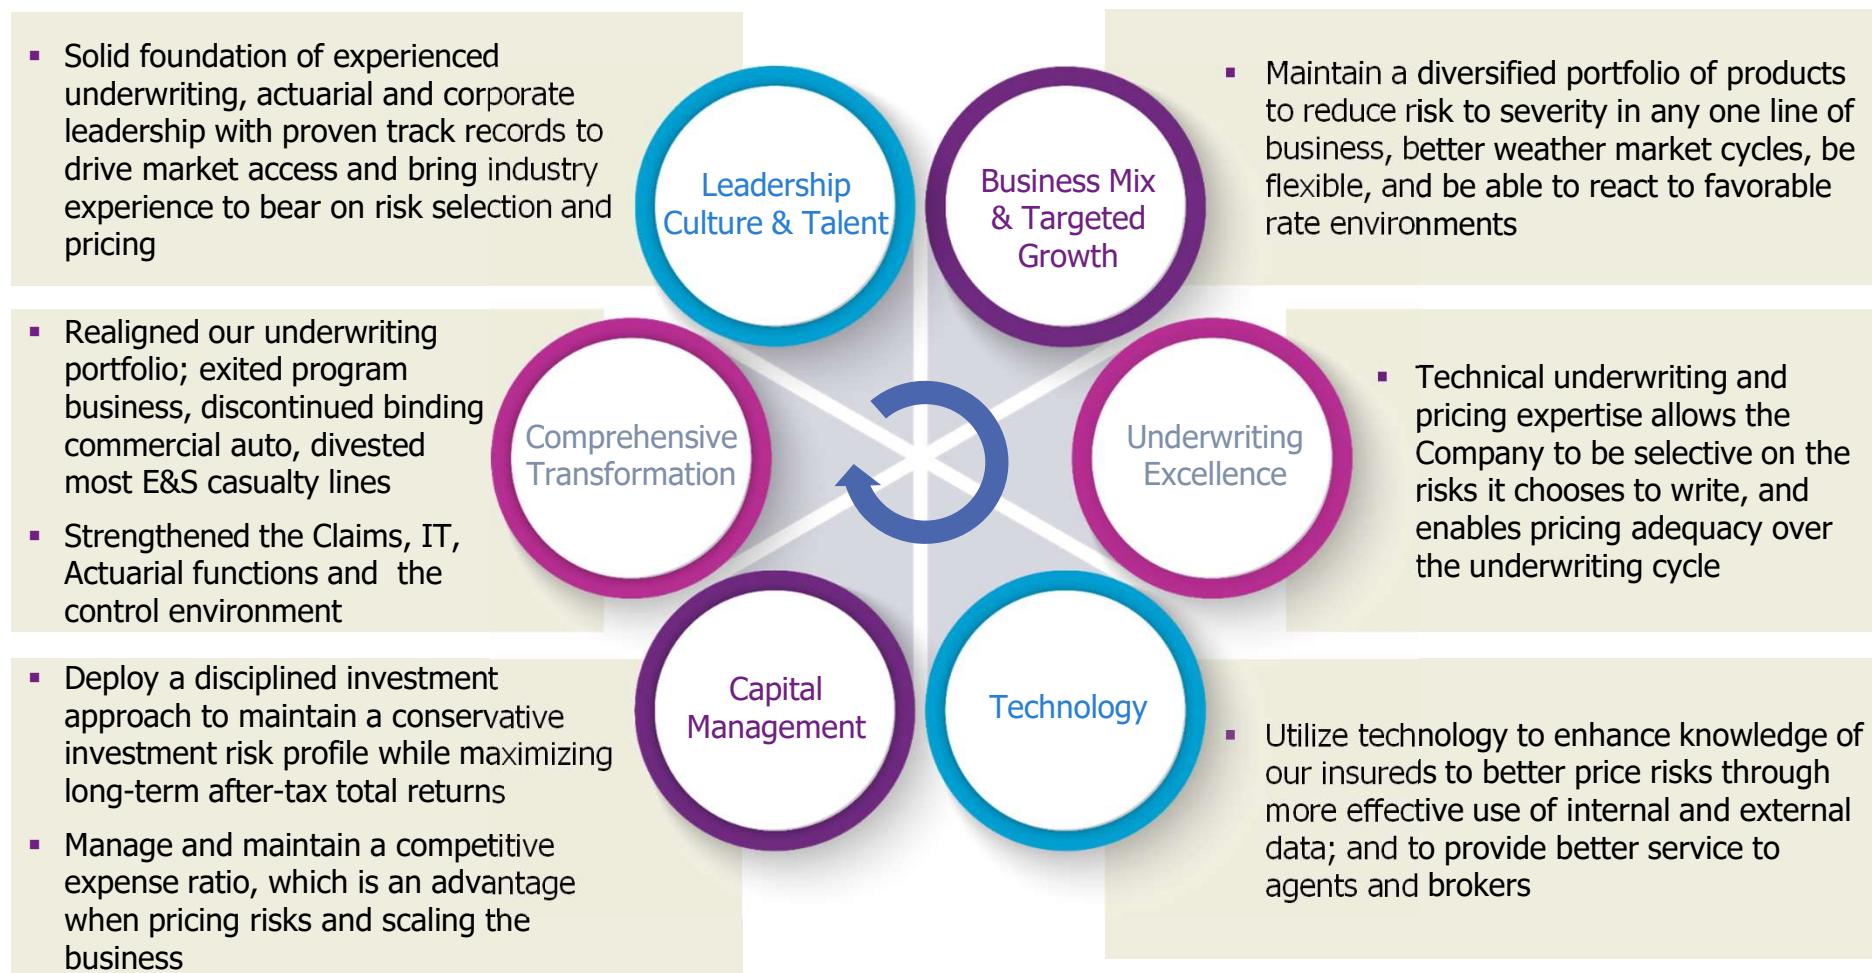

- our business and growth strategies;
- our performance goals;
- our projected financial condition and operating results;
- our understanding of our competition;
- industry and market trends;
- the impact of technology on our products, operations and business; and
- any other statements or assumptions that are not historical facts.

The forward-looking statements included in this presentation are based on current expectations that involve numerous risks and uncertainties. Assumptions relating to these forward-looking statements involve judgments with respect to, among other things, future economic, competitive and market conditions, legislative initiatives, regulatory framework, weather-related events and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond our control. These forward-looking statements are not guarantees of future performance, and a variety of factors could cause our actual results to differ materially from the anticipated or expected results expressed in these forward-looking statements. Although we believe that the assumptions underlying these forward-looking statements are reasonable, any of the assumptions could be inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this presentation will prove to be accurate. In light of the significant uncertainties inherent in these forward-looking statements, the inclusion of such information should not be regarded as a representation that our objectives and plans will be achieved.

More information about forward-looking statements and the risk factors associated with our company are included in our annual, quarterly and other reports filed with the Securities and Exchange Commission. The Company does not undertake to update the forward-looking statements to reflect the impact of circumstances or events that may arise after the date of the forward-looking statements.

Investment Strategy and Philosophy

Maximizing reported net investment income is secondary in importance to managing credit risk and optimizing after-tax total return through investments in tax-advantaged securities and securities with potential for significant capital appreciation

Debt Securities

- Broadly diversified selection of risks
- Primarily investment grade bonds; utilize tax-exempt securities to enhance after-tax returns
- Floating-rate bank loans provide protection against rising rates, first lien collateralization superior to unsecured senior bonds

Equity Securities

- Primarily long-term holdings with potential for significant capital appreciation
- Rigorous value-based investment discipline focused on individual security selection
- Opportunistic approach seeks to capture value resulting from market-related price dislocations and short-term orientation of market participants

Tax-Adjusted Yield

Book Value Per Share

Book Value Per Share

The 36% decline from 2019 to 2020 was largely due to the write down of Goodwill and intangible assets in Q1 2020. The 66% decline from 2021 to 2022 was driven by adverse prior year reserve development and an allowance recorded on our deferred tax asset. The 61% decline from 2022 to 2023 was driven by a write down of a receivable from a reinsurer.

Tangible Book Value Per Share¹

Tangible Book Value Per Share decreased 61% from year-end 2022.
This reduction was driven by a partial write down of a receivable from a reinsurer.

Non-GAAP Reconciliation

Non-GAAP Financial Measures

The Company's financial statements are prepared in accordance with United States generally accepted accounting principles ("GAAP"). However, the Company also presents and discusses certain non-GAAP financial measures that it believes are useful to investors as measures of operating performance. Management may also use such non-GAAP financial measures in evaluating the effectiveness of business strategies and for planning and budgeting purposes. However, these non-GAAP financial measures should not be viewed as an alternative or substitute for the results reflected in the Company's GAAP financial statements. In addition, the Company's definitions of these items may not be comparable to the definitions used by other companies.

Operating earnings and operating earnings per share are calculated by excluding net investment gains and losses and asset impairments or valuation allowances from GAAP net income. Asset impairments and valuation allowances are an unusual and infrequent charges for the Company. Management believes that operating earnings and operating earnings per share provide useful information to investors about the performance of and underlying trends in the Company's core insurance operations. Net income and net income per share are the GAAP measures that are most directly comparable to operating earnings and operating earnings per share. A reconciliation of operating earnings and operating earnings per share to the most comparable GAAP financial measures is presented below.

Tangible book value per share is calculated by dividing tangible stockholders' equity by common shares outstanding. Tangible stockholders' equity is calculated by excluding goodwill, net intangible assets, and related deferred tax liabilities from GAAP stockholders' equity. Management believes that tangible book value per share provide useful information to investors about the Company's per share equity value exclusive of goodwill and net intangible assets from prior acquisitions. Stockholder' equity is the GAAP measures that is most directly comparable to tangible shareholders' equity. A reconciliation of tangible stockholders' equity and tangible book value per share to the most comparable GAAP financial measures is presented below.
